

# Capabilities Statement

## Who We Are

Touch of Cinema is a full-service video production company providing support in all areas of production including: concept development, equipment, crewing, production support and post production editing. We have evolved into a creative company with the adaptability to service everything from cinema style production to training media and live broadcasting. Our team of award winning directors, producers, and editors pride themselves in maintaining long-term support relationships with clients and contracting agencies.

## Primary NAICS Codes

## What We Do

- ▣ **Creative Services and Pre-Production** - Scriptwriting, storyboarding, project management and budgeting, casting, crewing, location scouting, permitting.
- ▣ **Video Production** - Live action film and video, lighting and audio packages, camera and equipment packages.
- ▣ **Post-Production** - Dedicated editing team, graphics, animation, sound design, captioning and transcription.
- ▣ **Event Coverage** - Audiovisual support, live video production, pre-planning and project management.
- ▣ **Streaming and Broadcasting Services** - Live streaming and broadcasting, engineer and crew, graphics/lower thirds.
- ▣ **Photography** - Commercial photography ranging from live action stills, product shots and portraits.
- ▣ **Additional Training Media Support** - Translating existing materials into effective multimedia training packages and development/support for multi-platform user interfaces.

## What Sets Us Apart

- ▣ Touch of Cinema is a full-service film production company providing support in all areas of production.
- ▣ Over 22 years of experience in the industry.
- ▣ We excel at both scripted and live broadcast production.
- ▣ Our dedicated full time staff includes directors, producers, production support and editors.
- ▣ Extensive experience developing and capturing training media for a variety of industries ranging from medical, tactical military and corporate.
- ▣ We are not just a video company...
- ▣ Touch of Cinema and its partners are one of the few vendors providing solutions that target new directives for future training environments.
- ▣ These solutions allow for easy and actionable analytics to be generated and easily viewed for AAR and other analysis.
- ▣ Our solutions also have the ability to generate training certificates following the completion of a video course, as well as tracking and reminders of expired certificates.
